

# FINALLY, SAMPLING MADE SIMPLE!

No longer do you need to be a computer whiz kid to unleash your sampling creativity. Now in just 8 seconds you can sample anything from a Model "T" to a Boeing 747... or permanently store your favorite sounds... from a C.D. to a 525,000 synthesizer!!

The only limit with the AKAI S-612 is your own creativity. Of course, we offer hundreds of pre-recorded samples to get you started.

Write to us for additional SAMPLER™ info or visit your local AKAI dealer.
