

The high priest of percussive reality (Big Dave Patrick) steps forth from his quarters at the Congo Hilton with words of wisdom for the musical multitudes:

1. "Timba, mugalii!" Gretsch drums make bongo fury a breeze!! 6-ply shells, and natural finishes!!
2. Whirlwind snakes crawl a hundred feet and the new "4" plugs hang like tongs in your guitar and amp.
3. Voodoo? No, man, it's EQ with TAPCO's 6100 RB mixer/ stereo graphic equalizer with QSC power amp!!
4. Bwana knows about O'Marzio's T75 PAF humbucking coil like a Gurka knife! Ask DiMeola, Derringer & Walsh!
5. Bungle through the jungle with a new Gibson Artisan, Firebird or Explorer.
6. What would the Rite of Spring be without Strings? Hehner's String Vox puts the orchestra on the road!
7. If it's gold or platinum you seek, Travis Bean's Artist puts it in the groove. All aluminum neck strong as Kone!!
8. And MXR puts the call of the wild at your fingertips. All new Flanger and Analog delay line puts the studio in your suitcase! Bwana Knows!
