

Leslie[™] Speaker

- ◆ Adds the professional touch of a world-famous Leslie speaker at a budget price.
- ◆ Animates the music and creates stereophonic separation from the organ console.

The Leslie Model 110 is a skillful blend of engineering and furniture cabinet design into a unit that fits the budget of almost every home organist. It adds a professional touch to your music with a majestic sound that can be created only by Leslie speakers. The Model 110 will connect to any make single-channel organ and uses the organ's existing amplification system. Its precision-designed 12-inch speaker projects into a spinning Leslie full-range rotor to animate the sound throughout the room. The rotor can be operated in the "Fast" position to add an exciting tremolo or in the "Chorale" position for an ethereal, undulating musical effect.

Specifications:

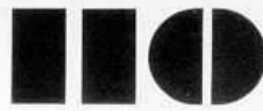

Dimensions: 29 $\frac{1}{2}$ " high, 24 $\frac{1}{2}$ " wide, 18 $\frac{1}{2}$ " deep.
